

Maintenance Technician

A growing injection molding company is in search of a full-time, experienced Maintenance Technician with a proven track record of being successful. The right candidate must demonstrate an eagerness to grow with a world-class organization.

The Maintenance Technician will be directly responsible for ensuring that all machines are running, and all repairs and preventative services are maintained.

Job Requirements

- Experience must include at least (2) two years of machine maintenance in a manufacturing environment with strong troubleshooting and repair ability. Proven knowledge in pneumatics and hydraulics. ABB & Fanuc robots, plc's, plumbing/pipefitting knowledge are a plus.
- Candidates must be flexible in shift assignments and willing to work overtime, including weekends.

Professional Requirements:

- Must have HS diploma/GED.
- Some college coursework preferred, but not required.

Application Process:

Visit the Internal Job Postings tab in PLEX, search for open positions at Romeo RIM and submit your online bid for consideration.

Romeo RIM is committed to a policy of equal treatment and opportunity in every aspect of their relations with employees, without regard to race, color, religion, creed, gender identity, sexual orientation, marital or parental status, height, weight, national origin, citizenship status, age, arrest record, genetic information, military or veteran status, or disability, or any other classification protected by applicable federal, state or municipal law.
